

Blood & Body Fluid Post Exposure Process

Immediately clean the wound with soap and water, flush exposed oral/nasal mucosa with water for 15 minutes and use eyewash stations as necessary. (EUH, EUHM, ESJH, EUOSH, ERH, EWWC)

During OIM business hours (Mon.-Fri., 7:30 a.m. – 4 p.m.)

After OIM business hours (Mon.-Fri. 4 p.m. – 7:30 a.m., weekends & holidays)

healt (F im cc Ad Nursii (ANS	ny exposed thcare worker HCW) is to mediately ontact the Iministrative ing Supervisor S) with source nt information.	ANS coordinates source patient testing, including consent for HIV testing, ensuring blood is available & ordering BBP exposure labs.	Emory employee completes incident report in HOME & follows up with OIM. Non- employee contact OIM directly at 404-686-8587,	If source patient is HIV negative, HCW should report to OIM the next business day for evaluation / baseline testing.	If source patient HIV (+) or unknown, the ANS will page the on-call APP for all HIV (+) or an unknown source. HCW will be instructed by ANS to report to either OIM (during business hours) or the ED for consultation with hospital Epidemiologist and possible medication initiation. Baseline testing will be performed on the HCW at OIM the next business day.
