Employee (Non-Manager) Edition: Starting your New Performance Management Cycle

The first step of the performance management process in PeopleSoft 9.2 is called the “Start” step. Here you will add your own goals, new competencies and additional responsibilities for use in driving feedback and evaluation throughout the year. This is an opportunity for you and your manager to determine what criteria should be included in the Mid-Year and End-of-Year review.

For questions or concerns please contact Learning and Organizational Development at x77844.
1) Begin by going to the Human Resources page and selecting “Self-Service Login.”

2) Type in your user name (Network ID) and password.
3) Here you will see the main screen of your performance document. You can navigate the main section of each stage (Start, Update, Mid-Year Review, Self-Evaluation, and Year-End Review) using the tabs for Competencies, Goals, and Responsibilities.

4) Click the “Goals” tab to add any goals you plan to accomplish during the performance management cycle.
5) Click the drop down arrow to expand each section and add your goals for this performance cycle. Then click the “Save” button.

6) Click the “Responsibilities” tab to add any key job responsibilities for this performance cycle. You can see a listing of your job responsibilities by clicking the “Job Summary” link.
7) When you have finished typing a responsibility, click the “Add” button.

8) Once you have added all goals and additional responsibilities click “Save.”
9) Once you are finished and have clicked the “Save” button, tell your Manager and he/she will approve the “Start” step.

10) After your Manager approves the “Start” step, you will receive an email confirmation.

Your performance criteria (competencies, goals and/or responsibilities) have been approved for this year’s performance management documents.

Employee (Non-Manager) Edition: Completing your Mid-Year Review

Your mid-year review form is accessible at any time during the first six months of the review cycle, allowing you to take notes when you wish. You don’t have to wait until just before the due date to record your accomplishments. Simply record noteworthy events as they happen. When your six month review is due, just submit the form to your manager.

Why is it important to take notes and document continuously?
• Taking notes throughout the year makes the process easier
• Takes less time to complete your review
• Providing detailed documentation closer to an event is more accurate

You should record your notes under one of the Emory Competencies:

WHAT: Competencies that speak to what you do in your job
  • Delivering Results
  • Problem Solving
  • Functional Knowledge & Skills
  • Service to Others/Customers

HOW: Competencies that speak to how you do your job
  • Building Trust
  • Collaboration
  • Communication
  • Taking Initiative

Employee (Non-Manager) Edition: Providing Upward Feedback

At Emory, staff members may have the opportunity to provide feedback about their supervisor to their supervisor’s leader regarding strengths and any areas for development. A supervisor must have two or more direct reports to participate. Direct reports are asked by their supervisor’s leader to provide comments to the following questions:

1. What do you see as your supervisor’s greatest strengths?
2. What area(s) do you think your supervisor should develop in order to be more effective?
3. Are there other comments about your supervisor that you would like to share?

Providing upward feedback is entirely optional but strongly encouraged. All feedback will be kept anonymous and a supervisor’s leader will only receive the feedback if two or more direct reports complete the questionnaire.

**How to write comments:** When responding to these questions, it is easy to reflect on only your most recent interactions with your supervisor, but it is best to think collectively of your supervisor’s behavior throughout the year. Reflect on strengths and any areas that can help them improve. If you have suggestions for improvement, explain why you would like changes and why these things are important to you or how changes would add value. Also, write responses that are specific but not so detailed that you could be easily identified.
