Preparing for Fall Semester 2021

Emory is so excited to welcome all our staff back to campus this fall! Whether you have been working on campus throughout the pandemic or working remotely this past year, the fall semester will be a big change for everyone.

We know you have many questions and concerns. To keep you updated on what Emory is doing to safely bring everyone back to campus, we will be sending **weekly emails** to all staff throughout the summer. These emails will help you understand what to expect for the fall semester and will address many questions you may have. We will also share resources and tips for making the transition as easy as possible.

**Please get vaccinated!**

Emory supports the safety and efficacy of the COVID-19 vaccine. The vaccine will not only protect you, but also those you love. It’s critical for everyone to be vaccinated.
to move past the pandemic. **Register for an appointment now.**

If you received your vaccine outside of Emory, be sure to upload your vaccine card to the H.O.M.E health portal. [View instructions here.](#)

**Thank you Emory Staff!**

Our staff members have done an outstanding job throughout our most challenging year, ensuring that Emory could continue to deliver its mission during a global pandemic. You have shown resilience, creativity, innovation and steadfast determination. Thank you for all you have done for Emory!
